

## PROFILE

My passion lies as a full-stack developer accomplished in modern web technologies React js and Node js. I have experience in state management with Redux and Redux Toolkit with Thunk, creative UI/UX design in React. Furthermore, I have implemented MVC, managed databases with Atlas, and performed CRUD operations. Moreover, I have experience with cookie management and user authentication with both Passport.js and JWT in Node.js and Express.js

## EDUCATION

### Swarnnim University

Bachelor of Computer Applications (BCA)  
2023 – 2026

### Sadhana Vidyalaya School

112th Commerce  
2022 – 2023

## SKILLS

- Node.js
- React.js
- Java-Script
- HTML
- jQuery, Bootstrap
- DSA with JavaScript
- Git - GitHub
- Cascading Style Sheets

## CERTIFICATIONS

### RED & WHITE MULTIMEDIA

Full-Stack Developer course, gaining skills in front-end (React, HTML, CSS) and back-end (Node.js, Express, MongoDB) technologies.

### TECHWAR

Received a certificate for outstanding performance in Techwar showcasing strong coding and problem-solving skills under pressure

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer Intern

Cognifyz Technologies | Dec 2024- Feb 2025

- Built and managed web applications using React.js, Node.js, and MongoDB.
- Developed both frontend and backend features for smooth functionality.
- Worked with APIs, authentication, and database management.

## PROJECTS WORK

### MERN Stack CRUD Operation

- Add new data to MongoDB using API requests from the React frontend to the Node.js & Express backend..
- Fetched and displayed data from MongoDB using Express APIs in the React UI.
- Modify existing data in MongoDB through API calls and update it dynamically in the frontend.
- Removed data from MongoDB via API requests and reflect changes on the UI.

### EJS-Based Admin Panel Backend Only - Node.js, Express, MongoDB)

- Secure login/logout with session-based authentication
- Create, Read, Update, Delete for users, categories, and subcategories.
- Implemented email-based OTP verification for password reset
- Users can securely update their passwords.
- Image handling with Multer for profile pictures and Product images.
- EJS templates for rendering pages with Bootstrap.
